

Although much of our work can be considered a form of presentation, we are frequently called upon to prepare formal presentations for large groups. Some of our recent engagements include the following:

Operation & Management of Sand Media Filters and Pressure Control Valves (Spanish), a multi-media seminar presented at the **Water & Nutrient Management Symposium**, February 2000, Salinas, California.

Applications of Irrigation Technology for Romania. A multi-media presentation given to the Romanian Agribusiness Tour, Salinas, California, sponsored by **US AID**, February 2000.

Building Successful Growing Systems. An hour-long multi-media presentation on the steps towards creating a viable agricultural system, given at **FarmTech 2000**, in Santa Barbara, California.

Micro Irrigation in Viticulture. A multi-media seminar presented to the *Viticulture and Enology Course*, **Central Polytechnic University**, San Luis Obispo, California.

Appropriate Irrigation Technology in Guatemala (Spanish). A five-hour presentation to growers, extension agents and university personnel for PROFRUTA, the extension branch of the **Ministry of Agriculture in Guatemala**, sponsored by *Partners for the Americas* and funded by **US AID**.

This seminar served as the Report of Findings of our two week investigation in Guatemala of the potential for micro-irrigation for avocados, apples and peaches, March, 1999.

Filtration Management. A field seminar presented on the *Central Coast Winegrape Growers' Field Day*, 1999.

Irrigation Technology Transfer. An hour-long Power Point presentation discussing the pitfalls of embracing new technologies and ways to avoid these pitfalls. Presented at *FarmTech 99*, in Santa Barbara.

Irrigation Management. A multi-media presentation given to the *Monterey County Grape Growers' Association*, Soledad, California, 1999.

Ten Keys to Successful Irrigation Management. An hour-long multi-media presentation given at the *1999 WineTECH/ GrapeTEC H Symposium* in Sacramento.

Irrigation Design Seminar presented at the 1998 National Sales Meeting of *Fresno Valves and Castings*, Yosemite, California.

Irrigated Viticulture. A field seminar presented on the *Central Coast Winegrape Growers' Field Day*, 1998.

Irrigation Management. A multi media presentation that detailed irrigation scheduling, management and maintenance, given at the *Irrigated Viticulture In The San Joaquin Valley* short course,

California State University
, Fresno, January 15-16, 1998.

Fertigation and Chemigation. A multimedia presentation discussing fertilizer injections and lime scale formation, given at the **Irrigated Viticulture In The San Joaquin Valley** short course, *California State University*, Fresno, January 15-16, 1998.

Irrigation Controllers. A Power Point presentation on automated control of irrigation systems, given at **FarmTech 98**, January 26, 1998, Santa Barbara, California.
